# Message From Chairman Sir

---

Before starting my company, I prepared myself as a hardworking and visionary leader. I began my professional journey as an operator in the garment industry during the 1980s and 1990s to gain a comprehensive understanding of production processes at the ground level. I then progressed to become a production manager by honing my skills and gaining extensive knowledge of production. With this expertise, I felt confident to enter the international fashion arena and established AJI Apparels Industry Limited in 1996 on a small scale.

Today, AJI has expanded to encompass several facilities located in Hemayetpur, Saver, and Dhaka, Bangladesh, including FRM Fashion House Limited and Polo Composite Knit Industry Limited. Polo Composite Knit Industry is a fully integrated composite industry that includes knitting, dyeing, printing, embroidery, and washing units.

Aware of the future challenges that lay ahead, AJI is constantly striving to master best practices in all of our manufacturing units to maintain professional competence and reliability. Our success is also attributed to the support of our principles, the teamwork and mutual trust within the organization, and the training and development of our employees based on my knowledge.

As the world continually evolves, we remain confident in our ability to meet future challenges and offer more promises to our clients.

# WELCOME TO AJI GROUP

The AJI Group of concerns was established in the readymade garments industry in Bangladesh in 1996, with the creation of a small sewing unit known as AJI Apparels Industry Ltd. Despite the challenges in the early years, the company persevered through hard work and a commitment to honesty, integrity, moral scruples, and ethical business practices.

To stay ahead of future challenges, the AJI Group has continuously invested in mastering best practices and maintaining professional competence and reliability in all of its manufacturing units. The company's philosophy is to consistently provide its customers with more than they expect, through a focus on meeting their needs and exceeding their expectations.

This unwavering commitment to customer satisfaction has been a hallmark of the AJI Group since its inception, guiding all of its interactions with buyers and clients.

## MISSION

Our mission is to achieve sustainable financial growth while maintaining a positive, clean, and professional work environment. We aim to consistently provide exceptional value and service to our customers, while fostering personal and professional development for all employees. We believe in continuously adapting to the changing world, and are confident in our ability to overcome future challenges and deliver even more value to our customers.

## GOAL

Our goal is to achieve sustainability through compliant and responsible environmental management, effective outsourcing, efficient manufacturing processes, and innovative product design. We aim to streamline our supply chain through vendor consolidation and cost reduction, while continuously seeking solutions to technical challenges. We prioritize quality improvement, inventory optimization, and service excellence.

# ORGANIZATION

AJ BHAI began his professional journey in the field of science in 1996, with a small team of only 200 individuals. Over the years, he has built a successful business empire consisting of AJI Group Industrial Park and AB Group. Today, the two groups comprise of over 14 units, employing over 12,000 individuals. The organization specializes in the production of textiles, ready-made garments, and laundry facilities.

# SUSTAINABILITY

AJI Group believe sustainability is about more than operating responsibly; it is an opportunity to support the communities we are a part of and have a positive impact on the world.

## RESPECT FOR NATURE

AJI group is a company that accepts the responsibilities of industrialization with its mind and heart. This can make us greatly respect nature's balance in every step of our production. We remedy every detail, from the journey of our preferred fabrics to the chemicals in our dyes. Because this indicates our gratitude to Dame nature, we are working in harmony with the analysis of international organizations for this.

# ACHIEVED COMPLIANCE CERTIFICATES

We are proud to announce that we have achieved compliance certificates in accordance with relevant regulations and standards. This demonstrates our commitment to meeting industry requirements and uphold the highest standards of operation. Our achievement of these certificates strengthens our credibility and enhances trust with our customers, partners, and regulatory bodies.

# WORKING WITH GLOBAL BRANDS & COMPANIES

At our company, we place a strong emphasis on cultivating long-lasting relationships with our customers based on trust and reliability. This is a critical aspect of maintaining the high standards of quality, consistency, and growth that are integral to our business. Our ability to engage in sustained projects and explore innovative ideas, while ensuring a safe and healthy work environment for our employees, is greatly enhanced by these relationships. Our valued clients have partnered with us for several years, and we are eager to extend the same level of commitment to new customers as we strive to build mutually beneficial, long-term partnerships.

# DESIGN

---

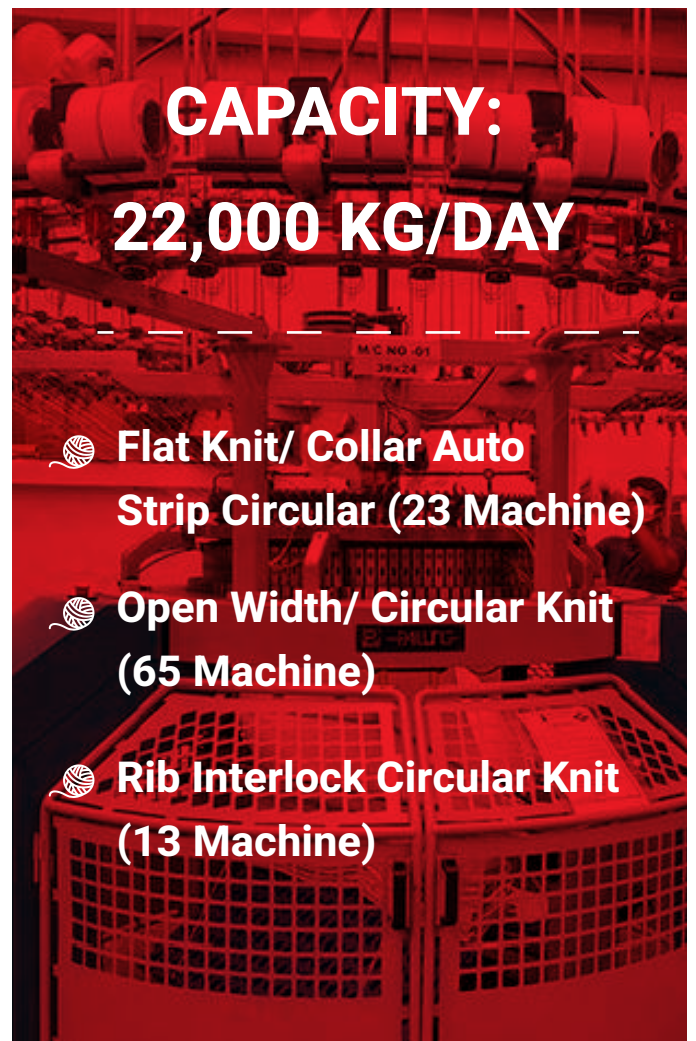

## STRONG OUTSOURCE & FASHION STYLES!

Our Design Department is dedicated to providing top-notch service to our clients. Our primary objective is to enhance outsourcing for fashion fabrics and materials by delivering stylish, on-trend designs. Our team of expert designers is available to work directly with you to provide strong, reliable outsourcing solutions and fashion styles. To ensure you stay informed of the latest styles and materials, we hold monthly presentations that showcase our newest offerings. We strive to be a trusted partner in helping you bring your fashion visions to life.
